

Some Issues to discuss

What are the things we can only do on Day 1 and is work happening on them all?

(eg MoG changes to DTI (and DEFRA) ; HO/DCA and CT; DCLG; Olympic Governance; any major changes in devolution - 'freeing' LAs from ring fencing etc)

Also, arrangements within the centre. Any changes on SU/CO etc that need to be worked through? (and how do things work within No 10 itself – are all key structures and appointments sorted etc?)

Assume we are we looking for a series of big speeches on each main area -with each including:

- a. direction that GB intends to take and
- b. two or three actual announcements?

Early emphasis on Constitution, Education, Health, Crime and Foreign policy

If so, should we now 'write' these? (Also, do we want letters to new SOS's)?

Are the specific things we are working on the right ones – and are we anywhere near satisfactory policies in all of them?
